

## Who We Are, What We do and Why?

Rakshak Foundation a non profit organization and is volunteer based. We belief that as a responsible citizen of the country, it is our moral and social duty to put our efforts towards the betterment of culture and society.

We have been in the forefront of creating awareness on issues affecting Indians living around the world and cultivating a sense of duty and responsibility amongst Indians living worldwide. Also, we have represented their problems at ministerial and parliamentary levels. As a result, we have been invited to the Parliament for presenting the research findings on 5 different occasions in the past 3 years. **We do everything that relates to living in Indian society a pleasant experience where anyone with talent and creativity could prosper without the fear of being unfairly targeted by any person by misuse of laws or connections.**

Research is an integral activity at Rakshak. We conduct research on global issues like education, judicial reforms, prevalent laws and it's long term effects on the society. Rakshak foundation has been in existence for nearly 4 years in India and abroad and has it's volunteer member across the globe with the aim to spread social responsibility and civil society.

To achieve our goal, we conduct press conferences, organize seminars, panel discussions, publish articles and express opinions on the present laws and policies in various ways. This initiative "India Inspired" is aimed to cultivate a sense of responsibility in 'Gen Y' towards the country. We believe that if we give good to the governance, we will get good from the governance.

Just like in order to be successful in one's professional life, one needs to continuously update skills, has to put in one's best and has to make compromises one may not like, exactly the same way in order to make the society better place, one has to put in energy, continuously work on making sure that policies, rules and laws are continuously updated to reflect the latest needs of the society with changes and impact of changing culture and globalization.
